Inground Liner Replacement – Our Specialty

We'll make your old pool look like new!

Secure
Your Spot
Today!

Why Choose Pettis?

Replacing your liner is an investment, and you want true craftsmen doing the job. At Pettis, our liner technicians have decades of experience in this work, giving you true peace of mind.

New beautiful 3-D photo-realistic contemporary liner patterns have revolutionized the industry. You'll love the selections! And you'll love the quality of our work!

Order early! To start the process, come in to either of our two locations or call 585.392.7711 x 114. We'll collect a 50% deposit to secure your spot on our installation list. First purchased, first installed! You may also make your liner selection at this time or click the links below to view all the gorgeous patterns from our vendor partners.

Pool measurements will then be taken and the liner order sent to the factory for fabrication. Because each liner is made only after receiving this order, there is a waiting period—anywhere from two to four weeks; maybe even longer when the season is in full swing—before the liner is received.

Then it's out with the old and in with the new! Repairs are made to the pool bottom as needed and all lines are tested. Your pool will look beautiful!

A designer in-ground pool liner can be the spectacular centerpiece of your backyard environment, transforming your pool into a work of art. Choose from our three manufacturers below and give your pool an updated look!

BABY-LOC Pool Fencing

BABY-LOC® Is the First Removable Pool Fence Good Enough to Come From LOOP-LOC!

When it comes to keeping kids safe, there is no substitute for adult supervision. But no parent can be everywhere, every minute! BABY-LOC removable mesh pool fence is a convenient, cost effective additional layer of protection to help deter toddlers from gaining access to a swimming pool. BABY-LOC is also the perfect choice for a raised deck or dock.

And because it's from LOOP-LOC, you know your BABY-LOC removable fence:

- BABY-LOC meets all ASTM standards and U.S. consumer product guidelines with heights of 4 or 5 feet, to better protect your children.
- Offers the most reliable self-latching gate available. Available as an option, the gate's unique latch uses a powerful magnet, which requires very little force to secure. Best of all, you can turn any portion of your BABY-LOC fence into a gate opening. Simply have your installer provide a fall-back hole wherever you'd like. Fence sections open in a snap for easy parent access.

Superior poly-coated, open-weave mesh black fabric offers visibility, high tensile strength and excellent UV stability. Won't rip, stretch or fade. Resists mildew, fungi and bacteria. And cleaning is a breeze!

Premium quad reinforced aluminum poles. They are noncorrosive, rust-proof, and color matched to our black fabric.

START YOUR SEASON OFF RIGHT BOOK YOUR POOL OPENING

SECURE YOUR DATE BY PHONE OR EMAIL TODAY!

Leave the dirty work to us when we professionally open your pool.

Included with Openings:

- Remove the water and leaves from the cover, clean and remove the cover. If the cover is dry before we leave, it will be folded.
- Brush and roll the waterbags.
- Reassemble the filter and filter plumbing. The motor will be tested to make sure it is not seized and ready to run.
- If the water level is high enough, the pump will be primed to get the filter running. You can make sure the water will be high enough by placing a garden hose under the cover and adding water a day or two before we arrive.
- Install ladders, handrails and diving board (if needed) ** Addt'l charge of \$50 per person if needed to install or remove step system.
- Chemicals Added as appropriate (see below):
 1. Chlorine Pools: Chlorine and Algaecide are added.
 2. Salt Chlorine Generator Pools: Chlorine and Algaecide are added.
 3. Baquacil Pools and Baquacil CDX Pools: Baquacil Oxidizer and Baquacil Algicide are added.
 4. EZ Pool Pools: Small amount of chlorine is added.

* Pool vacuuming is not included with openings.
